. Operational Bottlenecks & Actionable Recommendations

• **Delivery Turnaround Bottleneck:** Orders take 1 to 10 days with an average of 5.53 days. In the gifting industry, customers expect prompt delivery. *Recommendation:* Introduce same-day or next-day express delivery in tier-1/tier-2 cities, particularly for perishable items like cakes and sweets.

• **Low-Selling Inventory:** Plants (₹2.12L) and Mugs (₹2.01L) make up under 12% of total sales. *Recommendation:* Create combo bundles pairing slow-moving items with high-demand bestsellers (Sweets and Soft Toys) at promotional discounts.

• **Lean Off-Season Months:** Sales drop significantly during non-festival months like January (₹95K) and April (₹1.40L). *Recommendation:* Run automated

birthday/anniversary reminder campaigns and discount triggers during lean months to stabilize cash flow.

ACTION PLAN TO GROW SALES (RECOMMENDATIONS)

Fast Delivery Option: Start same-day or next-day delivery in big cities, especially for perishable items like cakes and sweets.
Sell Items Together (Combos): Bundle slow-selling items (like Mugs and Plants) with popular items (like Sweets and Soft Toys) at a discount.
Offers in Slow Months: Send discounts and reminders for birthdays and anniversaries during slow months (April, May, July) to keep orders coming in.
